This month's organization spotlight will be on

Cerro Gordo County Free Health Care Clinic

Three years ago, Doris had an abnormal pap smear. She was short of money and had no health insurance, so she didn't follow up with her doctor. Recently, she was brought to the emergency room by concerned neighbors, but it was too late...cancer had spread throughout her body.

To help relieve the suffering of people like Doris, we plan to open the Cerro Gordo County Free Health Care Clinic in Mason City. We will provide basic medical care at no cost to all uninsured Cerro Gordo County residents.

A clinic location has been donated, and we are busy recruiting volunteers to staff the clinic. Before we can open, however, we need to raise \$70,000. This will cover the cost of supplies and equipment for our first year of operation.

Contributions at this time are critical! We want to open the free clinic as soon as possible and begin treating our brothers and sisters in need.

We would really appreciate your help.
